METHODOLOGY FOR PLANNING INFORMATION

This report contains Annual Planning Information for Program Year 1992.

Tables of Population and Labor Force Status by Age, Sex and Race are not included in this year's report, as the detailed 1990 Census data necessary to produce these estimates by SDA were not yet available.

Labor Force Estimates for the SDA's are shown for 1980 through October 1991. Data for component counties are available upon request.

Annual Average Covered Employment, the number of people employed in firms covered by the Texas Unemployment Compensation Act, is given for each SDA for 1988, 1989, and 1990. Data for the first quarter of 1990 are also included. After the first of January, data for the second quarter will be available and will be furnished to interested parties upon request. The introduction of the 1987 revision to the Standard Industrial Classification Manual changed some industry codes, particularly in Manufacturing, Finance, and Services. These changes make comparisons with years prior to 1988 difficult in some industries. In these cases, it is suggested that you look to major groups, since they were generally unaffected.

The quarterly publication, **Covered Employment and Wages by Industry and County**, contains similar information for all Texas counties and is available upon request.

The ***3-Digit Distribution of 2-Digit Industries*** gives a better idea of the type of industrial activity in the SDA.

Characteristics of the Insured Unemployed, current and a year ago, shows for the SDA as a whole the number of claimants in each occupation and industry for the most current period compared with the same time last year. Copies of current reports for individual counties may give further information on conditions within each SDA.

The most recent data on ***Per Capita Income*** (for 1989) for counties from the Bureau of Economic Analysis of the U. S. Department of Commerce are furnished, with a comparison to 1984 figures.

Estimates of the ***Poverty Population for 1989-1991*** by county have been generated by the Texas Department of Human Services. We have reproduced their estimates and aggregated them into SDA totals.

The Texas Department of Human Services supplied data on ***Aid to Families with Dependent Children*** by county for the most current period available (October 1991), from which SDA totals were aggregated.

If we can help you with other information in planning for Program Year 1992, please feel free to contact the ERA Department of TEC at (512) 463-2841.

NOTE: Data for 1988 are not strictly comparable to prior years' data due to the 1987 SIC Code restructuring. Among those industries primarily affected by these changes were: SIC's 30, 32, 36, 38, 60, 61, 66, 72, 73, 78, 79, 87 and 89. These changes occurred to varying degrees within different SIC's. The most obvious changes were in SIC 66 (which was deleted) and SIC 87 (which was newly-created).
